

Record of consent to be contacted

What the consumer below agreed to, when, and from which connection and device, taken from an append-only record that cannot be edited after the fact.

Integrity check passed: all 7 entries verified unaltered.

Anyone can check this certificate is genuine

Scan the code, or go to onrecordleads.com/verify and enter the certificate number and this fingerprint. The check recalculates the record live and shows no personal information.

Agreed on (UTC)	2026-09-29T18:32:31Z
IP address	203.0.113.47
Device and browser	iPhone, Safari 19
Wording version	tcpa-2026-02

Exact wording the consumer agreed to:

By clicking Submit, I agree that licensed insurance agents at the one insurance agency that receives my request may contact me at the phone number and email address I provided, including by text message, about health insurance options. These may include Affordable Care Act plans and supplemental plans, such as fixed indemnity plans, which are not ACA-qualified coverage. I understand these contacts may be made using an automatic telephone dialing system or a prerecorded or artificial voice, and that message and data rates may apply. I understand my consent is not a condition of purchasing any goods or services, and that I may revoke it at any time.

How this record is protected

Each entry is sealed when it is written with a SHA-256 fingerprint that includes the fingerprint of the entry before it, forming a chain. Changing, removing or reordering any entry breaks every fingerprint after it, and the database refuses edits and deletions outright. The integrity check on page 1 recalculated the whole chain at the moment this certificate was generated.

Fingerprint of the final entry (#7):
